

Houghton Primary School

This policy and procedure has been produced based on recommendations in the Final Report of the Commission on Assessment without Levels (Sep 2015) and in line with the 'Purposes and Principles of Assessment without Levels'.

<https://www.gov.uk/government/publications/commission-on-assessment-without-levels-finalreport>

This policy and procedure is for Key Stage 1 and Key Stage 2. A separate policy and procedure is in place for Early Years Foundation Stage.

AIMS AND PRINCIPLES

To ensure that:

- Assessment is an integral part of teaching, based on best practice, focusing on the curriculum and that it lies at the heart of promoting children's education.
- High quality teaching is supported and informed by high quality formative assessment.
- Our ethos based on a focus on teaching, supporting and challenging each and every child through a highly individualised approach is underpinned by a range of high quality information gained through assessment processes across the curriculum.
- Assessment enables the attainment and progress of each child to be monitored effectively and supports future planning.
- Assessment provides information which is clear, reliable and free from bias which can be used effectively to inform teaching and learning.
- Assessment supports informative and productive conversations with pupils and parents.
- Children take responsibility for their achievements and are encouraged to reflect on their own progress, understand their strengths and identify what they need to do to improve.
- Assessment is not onerous and can be achieved without making pupils feel stressed and without adding unnecessarily to teacher workload.
- Assessment is inclusive of all abilities.

DELIVERY

At Houghton School, we use three forms of assessment:

1. Day to Day In-School Formative Assessment
2. In-School Summative Assessment
3. Nationally Standardised Summative Assessments

Assessment Policy and Practice (KS1 and KS2)

1. Day-to-Day in-school formative assessment

Day to Day In-School Formative Assessment is an integral part of teaching and learning. When used effectively it allows teachers to understand pupil performance on a continuing basis, enabling them to identify when pupils are struggling, when they have consolidated learning and when they are ready to progress. In this way, it supports teachers to provide appropriate support or extension (enrichment activities to deepen understanding) as necessary and informs progress. It enables teachers to evaluate their own teaching of particular topics or concepts and to plan future lessons accordingly. It helps children to measure their own strengths and areas for development.

At Houghton Primary School a code is used to underpin all formative assessment as follows:

Used by...	RED	AMBER	GREEN
The teacher or learning support assistant:	I think you are confused or don't understand... STOP and get help...	I think you are getting there... we will keep an eye on you... CONTINUE with care...	I think you understand fully and you are ready for the next challenge... GO and keep GOING!
The child:	I am confused or don't understand... I need some help!	I am getting there and understand most of this work... Please keep an eye on me!	I understand this fully and I am ready for the next challenge... Give me the next challenge!

Day to Day In-School Formative Assessment is used across the curriculum using the following strategies:

During the lesson:

WALT... Share the purpose of the learning

- What? Why? How? We are learning to/that... (WALT)
- Use 'essential learning objectives' – see Houghton Primary School Curriculum statements on school website.
- KS2 write WALT statements in books/on work
- KS1 teachers stick WALT statements in – Y2 write own as they are able.

Teach

- Know the subject
- Use range of questions to gauge learning
- Adapt as necessary
- Equality of access

Houghton Primary School

- Keep teacher talk to a minimum
- Keep children mentally and physically active
- Question (using Bloom's Taxonomy question starters)
- Give time for children to think, discuss, explain, question.

Observe

- Stop talking!
- Stand back
- Observe and listen
- Don't interrupt
- Give children time
- Don't leap in

Self-Review and Peer Review

- At key points in lesson (and at the end)
- Ask the child/children to RAG rate – colour dot (individually or in pairs)
- Take appropriate action
 - RED – learning conversation
 - AMBER – let them get on, but keep an eye
 - GREEN – learning conversation leading to reinforcement or further challenge

Talking it through

- Learning conversation
- Open ended questions or conversation openers
 - Tell me how you...
 - Explain your thinking...
 - Teach me to...
 - Why did you...?
- RAG rate the child's learning accordingly – colour dot. Explain the rating to the child.
- Target learning conversations according to observation
- Aim to 'touch base' with every child at least once a week.
- NO RECORDING – evidence in learning outcomes and progress, monitoring of teaching and children's ability to articulate learning with others.

Adapt as necessary

- Respond to on-going assessment
- Change teaching/lesson as necessary

Independent or Supported?

- Use symbol (S) to indicate if a child has had support during the lesson within heavily guided group work or during one-to-one support.

Assessment Policy and Practice (KS1 and KS2)

After the lesson;

Scan and sort

- Review learning through physical outcomes and sort into piles

RED	AMBER	GREEN
Children who need specific help/support before or in the next lesson. This is recorded in an 'Intervention Record Book' used by the teaching team to ensure that action is taken and impact recorded.	Children who we will need to keep a particular eye on during the next lesson to ensure that they understand.	Children who need the next level of challenge in order to deepen or further their learning.

- RAG rate using dots
- If more than one dot – state why e.g.
 - Handwriting
 - Use of punctuation

Identify intervention/support

- Note down child/children who need intervention before next lesson to address misconceptions or to 'diminish differences'/close gaps USE INTERVENTION RECORD BOOK

Write immediate action on child's work ONLY as necessary

DO NOT do this if action is going to take place in the following lesson e.g. through teaching or intervention.

- Address IMMEDIATE action for child to improve work/apply learning by using NOW statements e.g.

'Now copy out the last sentence using neatly, joined handwriting.'

'Now complete 2 more calculations showing working out.'

'Now go back and correct the spelling errors I have underlined.'

'Now go back and correct the 3 places where you have not used capital letters.'

- Do not address longer term targets using NOW statements e.g. 'Now focus on punctuation' is not appropriate as it is not an immediate 'fix'.

NB: Must give children time to read and take action before next lesson. Ask children to double tick to show that they have read the comment and carried out the action.

There is no requirement to write anything else. Teachers can write a 'well-being' comment if they wish e.g. *'Lovely! / Well done! / Super work! / You have tried hard./ I enjoyed reading this.*

Houghton Primary School

Planning

Teachers must use the information gained from the assessment processes outlined above to plan. The 'golden' principles of planning are:

1. Keep it Simple

Planning is for the teacher to enable them to ensure that they teach the curriculum and respond to the outcomes of the children's previous learning identified in the review/marking or from assessment outcomes. It does not have to be written down in any specific format. Whilst teachers may have an overview of what they may cover during a week they should not plan for a week as this will prohibit responsive planning according to children's needs.

2. Equality

All children are entitled to access the curriculum for their year group (unless specified needs within a PIP and/or EHC plan). Differentiation is through targeted support as necessary e.g. pre-learning and/or intervention to 'diminish the differences' that may be a barrier to learning for individuals. Support should be targeted and focused with the intention that it will have impact.

3. Depth of Learning

Ensure that teaching and activities enable depth of learning (see below) BAD teaching refers to Basic, Advancing and Deep learning. Ensure that this is carefully thought about when planning to enable all children the opportunity to secure deeper learning over time and with appropriate challenge.

Assessment Policy and Practice (KS1 and KS2)

Depth of Learning	Cognitive Challenge	Predominant Teaching Style	Typically, children will...
DEEP	Cognitive demands are complex and abstract. Involves problems with multi-steps or more than one possible answer. Requires justification of answers.	Coaching Mentoring	... solve no-routine problems, appraise, explain concepts, hypothesise, investigate, cite evidence, design, create, prove.

2. In-School Summative Assessment

In-school summative assessments are used to provide information about how well children have retained knowledge and understanding in a given area over time.

Used effectively well-chosen in-school summative assessments provide teachers with information about each pupil and help to identify areas of strength and areas which need development or support. This enables teachers to target support appropriate to individual needs between summative assessments. They can also provide information about the strengths and areas for development for groups and cohorts. This enables teachers to ensure that medium term planning for the class is appropriate to their needs.

In-school summative assessments also enable the attainment of children to be monitored over time. This provides an in-school measure of progress for each child.

Choice of in-school summative assessments: At Houghton Primary School we use a range of school produced and published assessments in core curriculum areas to support our in-school summative assessments. Each assessment has been extensively researched, trialled and chosen with our policy in mind, particularly the principles that;

- Assessment should provide information which is clear, reliable and free from bias which can be used effectively to inform teaching and learning.
- Assessment is not onerous and can be achieved without making pupils feel stressed and without adding unnecessarily to teacher workload.

Details of the in-school summative assessments used are provided in the appendices.

Houghton Primary School

Frequency: In-school summative assessments are timetabled across the year, planned with pupil and staff well-being in mind. We use these assessments to inform teaching, support and intervention and therefore use them at times of the year which we feel best informs our 'next steps' approach as well as ensuring that pupils needs are being met through well-informed assessments and are therefore less likely to fall behind or not be appropriately taught and challenged. An annual planner is created at the start of each new school year to lay out when each assessment will be completed.

In-school summative assessments are moderated across the school and with colleagues from other schools.

Using in-school summative assessment: Analysis and Planning

All teachers mark the in-school summative assessments for their cohort (it is not delegated to other staff). This enables them to see, first-hand, the strengths and areas for development for each child. It enables them to see which questions were tackled confidently and how each question was tackled, providing much more information than just a raw score.

Teachers record the assessments for each child on to specific record sheets for each of the core areas of the curriculum. This enables, at a glance, teachers to analyse assessment information in terms of areas of strength and areas that need to be re-visited or taught within the coming weeks. (See Appendices) Teachers use these records to complete medium term planning which provides an overview for the coming weeks, picking up on identified gaps for the cohort as well as ensuring curriculum coverage. (See Appendices)

Defining Attainment: At Houghton Primary School we have not adopted a numerical system or levels of attainment. We use the outcomes of in-school summative assessments together with the information gained during-school day to day formative assessment to make a summative judgement about each pupil's attainment at least once a term.

Teachers use their knowledge of each subject together, summative assessment outcomes and exemplification resources and materials provided by the Department for Education (if available) to judge the progress of individual pupils towards end of year Age Related Expectations (ARE).

For each year group we define attainment using the following terms:

Assessment Policy and Practice (KS1 and KS2)

Judgement	Houghton Primary School Definition
Emerging	Pupil is working in the early stages of knowledge and understanding of the end of year Age Related Expectations for the year group within this subject. This pupil needs support and further teaching to understand and to be able to work confidently and independently.
Developing	Pupil is developing greater knowledge and understanding of the end of year Age Related Expectations for the year group within this subject. This child is not yet fully secure and continues to need some support in identified areas.
Securing	Pupil is working comfortably and confidently within the end of year Age Related Expectations for this year group. They need little support and are applying their knowledge and understanding in a range of contexts.
Greater Depth	Pupil has a deep knowledge and understanding within the end of year Age Related Expectations for this year group. They are able to apply their deep knowledge and understanding confidently in a range of contexts.

Teachers use outcomes of in-school summative assessments to help inform summative teacher assessment. These judgements, together with assessment results are recorded on pupil individual record sheets (See Appendices). Outcomes are shared with parents and Key Stage 2 pupils at termly progress meetings and a Key Focus (to support progress) is identified and recorded for each core area. A note of any planned support/intervention work is also made on this individual record.

Teachers summarise the results of in-school summative assessments at the end of each term. This information is used by school leaders to track the attainment of individuals, groups and cohorts (See Appendices). Teachers meet with the headteacher at least once a term to discuss the attainment and progress of pupils in their class. They are expected to have a good knowledge of the achievement of each pupil and plans in place to ensure that all children make progress in their learning, using assessments to inform those plans. Teachers can seek advice from subject leaders and/or the SENDCo to support planning.

Teachers of Years 2 and 6 use this information to inform their end-of-year Teacher Assessment reported to the Department for Education as follows:

Houghton Primary School

School Assessment Definition	Department of Education terminology End of KS1	Department of Education terminology End of KS2
Working within a standard for a year group below their age group.	BLW Below the standard of the pre-Key Stage standard PKF Pre-Key Stage - foundations for the expected standard	BLW Below the standard of the pre-Key Stage standard PKF Pre-Key Stage - foundations for the expected standard PKE Pre-Key Stage – early development of the expected standard PKG Pre-Key Stage – growing development of the expected standard
Emerging or Developing	HNM Has not met the expected standard (for science only) WTS Working towards expected standard (for Reading, Writing and Mathematics)	HNM Has not met the expected standard (for children who have a test result) in reading, GPS, Mathematics and for Science (no test) WTS Working towards standard (used in English – Writing, only)
Secure	EXS Working at expected standard (for Reading, Writing, Mathematics and Science)	EXS Working at expected standard (for Reading, Writing and Mathematics)
Greater Depth	GDS Working at greater depth within expected standard (for Reading, Writing and Mathematics)	GDS Working at greater depth within expected standard (Writing only)

Where children with Special Educational Needs are working at a standard below those defined in the National Curriculum the school will use 'P Scales' to assess their attainment and progress.

3. National standardised summative assessment

Nationally standardised assessments are used to:

- Provide information on how children are performing in comparison to children nationally.

Assessment Policy and Practice (KS1 and KS2)

- Provide parents with information on how the school is performing in comparison to schools nationally.
- Provide teachers with an understanding of national expectations and to assess their own performance in the broader national context.
- Provide school leaders, including governors, with information which enables them to be able to benchmark the school's performance against other schools locally and nationally, and make judgements about the school's effectiveness.
- Provide a starting point for Ofsted's discussions, when making judgements about the school's performance.

A range of nationally standardised summative assessments are used at Houghton Primary School in line with statutory requirements:

Year Group	Nationally Standardised Assessments
Year 1	Phonics Check (June)
Year 2	End of Key Stage 1 Assessments (including Standard Assessment Tasks or SATS) in; <ul style="list-style-type: none"> Reading Writing (teacher assessment only, no SAT) Grammar, Punctuation and Spelling Mathematics SATS completed in May, Teacher Assessments finalised June
Year 6	End of Key Stage 1 Assessments (including Standard Assessment Tasks or SATS) in; <ul style="list-style-type: none"> Reading Writing (teacher assessment only, no SAT) Grammar, Punctuation and Spelling Mathematics SATS completed in May, Teacher Assessments finalised June.

The school adheres to all statutory requirements relating to the National standardised summative assessments using statutory guidance within the Assessment and Reporting Arrangements (ARA) documents provided by Department for Education. The administration of these assessments is monitored by school governors.

Outcomes for individuals are shared with parents at the final Progress meeting of the year in July together with children's Annual Report. A summary of the end of Key Stage 2 National statutory assessments is published on the school's website.

Houghton Primary School

A summary of all National statutory assessments is shared with governors. This includes an analysis of outcomes for each cohort and groups within each cohort.

This information is used to inform school self-evaluation and forward development planning.

AN INCLUSIVE APPROACH TO ASSESSMENT

Children with additional needs and Special Educational Needs are assessed using in-school day to day formative assessment and in-school summative assessments. Where appropriate and whenever possible, children with additional needs or special educational needs will access in-school summative assessments which are designed for their age group. In-school summative assessments from age groups below chronological age may be used if a child is working well below the standard of their cohort. This is to ensure that their knowledge and understanding is still assessed and progress measured. Outcomes of all assessments are used in the same way as those of other children, to identify areas of strength and areas for development. They help to target appropriate and effective support.

The results and outcomes of pupils with special educational needs are shared with the SENDCo as part of the review of progress within their Pupil Individual Plan (PIP) and within any reviews of Statements or Education, Health, Care Plans.

In addition to the assessments above, the school makes use of additional diagnostic assessments to contribute to the early and accurate identification of pupil's special education needs and any requirements for support and intervention.

TRAINING FOR STAFF

After joining the school, all teachers are provided with a copy of this policy and it forms part of the induction programme.

Assessment is regularly on the agenda of Professional Development meetings and Professional Development Days. External providers may lead training if appropriate. Learning support staff are invited to all professional development days and included in staff training relating to assessment. Further training relating specifically to the role of learning support staff in assessment takes place periodically.

Assessment Policy and Practice (KS1 and KS2)

Teachers in Years 2 and 6 attend external professional development opportunities relating to statutory end of Key Stage assessments.

School leaders attend external professional development opportunities relating to assessment in order to;

- keep abreast of national developments in assessment
- ensure that statutory requirements are being fulfilled
- develop and improve in-school forms of assessment

Monitoring and Evaluation

The headteacher, as Assessment Leader, is responsible for updating this policy in line with any new developments in the school and new government guidance.

All staff are expected to follow the policy and the Leadership Team, following ongoing regular reviews of classroom practice, are responsible for ensuring the effectiveness of practice across the school, reporting to the Teaching, Achievement, Behaviour and Safety Governors Committee.

This policy was agreed by teaching staff in September 2017.

It will be reviewed every 3 years or sooner if statutory arrangements change.

Next review by September 2020.

APPENDIX: INTERVENTION RECORD

Subject:

Date	Child's/Children's Name(s)	Misconception or Difficulty	Summary of support provided	Provided by	Progress of child/children after intervention (dated)

APPENDIX: Summative Assessments

Reading	Y2 – Y6 Headstart Primary Reading Comprehension tests	Once a term
	KS2 Star Reading Tests (Accelerated Reader)	Every half term
Writing	KS1 and KS2 Use Big Write criteria to assess a portfolio of independent writing for each child	Once a term
	Comparative Analysis writing assessment in Years 2, 4 and 6 using 'No more marking' online programme	Spring and Summer terms
Spelling	KS1 and KS2 Key word list and Year group NC spelling list.	Every half term
Grammar and Punctuation	KS2 Headstart English Grammar and Punctuation tests	Once a term
Phonics	Y1 and Y2 Phonics check materials (previous papers etc)	Every half term
Mathematics	KS1 and KS2 White Rose Mathematics tests	Once a term
All other curriculum areas	Essentials Curriculum checklist	Once a term

See Annual Planner for dates of implementation

APPENDIX: Example Class Summative Assessment for Writing – used to analyse gaps and to plan for coming term

Year Group:	Date of Assessment: Autumn 1 Autumn 2 Spring 1 Spring 2 Summer 1 Summer 2	Children's Names:																	
Teacher(s):																			
1	Can write in a lively and coherent style.																		
2	Can use a range of styles and genres confidently and independently. If the writing is a narrative, simple report or recount of a known story this can't be ticked. If any other genre, it can be as pupils will already know those three.																		
3	Can use interesting and ambitious words sometimes, (should be words not usually used by a child of that age, and not a technical word used in a taught context only e.g. 'volcano' or 'evaporate').																		
4	Can organise ideas appropriately for both purpose and reader, (e.g. captions; headings; bullets; fonts; chapters; letter formats; paragraphs; logically sequenced events; contextual and background information etcetera).																		
5	Can use a wide range of punctuation including at least 3 of the following: full stop and capital, question mark, exclamation mark, apostrophe and comma, mainly accurately.																		
6	Can write neatly, legibly and accurately, usually maintaining a joined style																		
7	Can use more sophisticated connectives, (e.g. although, however, nevertheless, despite, contrary to, as well as etc).																		
8	Can use links to show time and cause.																		
9	Can open sentences in a wide range of ways for interest and impact.																		
10	Can use paragraphs although may not always be accurate.																		
11	Can produce thoughtful and considered writing, (uses simple explanation, opinion, justification and deduction).																		
12	Can use or attempt grammatically complex structures, (e.g. expansion before and after the noun – 'The little, old man who lived on the hill...'; '... by the lady who taught me the guitar,...' ; subordinate clauses – 'I felt better when....').																		
13	Can spell unfamiliar regular polysyllabic words accurately and most or all of the Year 4 High Frequency Words and the Year 4 words in the N.C. Appendix 1.																		
14	Can use nouns, pronouns and tenses accurately and consistently throughout.																		
15	Can use apostrophes and / or inverted commas, mainly accurately (If direct speech is not appropriate to the task, apostrophes alone can score the tick).																		
16	Can select from a range of known adventurous vocabulary for a purpose, some words are particularly well chosen.																		
17	Can select interesting strategies to move a piece of writing forward, (e.g. asides, characterisation, dialogue with the audience, dialogue and negotiation within contexts etcetera).																		
18	Can advise assertively, although not confrontationally, in factual writing, (e.g. 'An important thing to think about before deciding...'; 'We always need to think about...').																		
19	Can develop ideas in creative and interesting ways.																		
		Total																	

APPENDIX: MEDIUM TERM PLANNING

Year group:

Term:

Brilliant Beginning:		Topic Title	Fabulous Finish:	
BIG IDEAS				
	Reading			
	Writing			
	Communication			
	Mathematics			
	ICT			

Key Drivers**Enquiry**

We want to encourage our children to be inquisitive, to ask questions and be resourceful and independent in their learning. They need opportunities for independent thinking and application of skills whilst developing collaborative learning. They need to be able to take risks and to develop perseverance

Spiritual, Moral, Social and Cultural Development Our school believes in *truth *justice *equality *a sense of right and wrong	Diversity to develop our children's horizons and understanding of a variety of lifestyles	
Enterprise to support our children in developing more independence and the opportunity to show initiative	Community to develop our wish to be a central part of the community	Environment to continue to reinforce that we value the environment and feel passionate about its management
Risk because children need to learn to assess and manage risks by having fun and a little bit of danger!	The Arts to support our passion for a broad, cultural education for our children	Sport to support our belief that competition and participation develop confidence

NB: With the exception of Enquiry, not all drivers will be planned for/covered in depth each term, but over the academic year each should have been planned for at least once.

APPENDIX: EXAMPLE COHORT TRACKING GRID

Year Group:

Subject:

READING

Date:

Number in cohort:

Teacher:

**Using formative and summative assessments relating to national expectations in this subject
(see important assessment information on reverse)**

NAMES:

Children not on track to meet national Age Related Expectations in this subject due to identified additional needs	Children not on track to reach national Age Related Expectations in this subject
Children on track to meet Age Related Expectations in this subject	Children on track to achieve Age Related Expectations in this subject in 'even greater depth'

Indicate:

Boys	Girls	Pupil Premium (FSM)	Pupil Premium (Service Family)	Pupil Premium (LAC/Adopted)	EAL	SEN Statement/ EHC Plan	SEN Support
Highlight	Highlight	PP	PP(S)	PP(LAC)	EAL	S	SEN

Summary:

	Number of children in cohort	Number not on track (identified additional needs)	Number not on track	Number on track	Number likely to achieve in even greater depth
All children					
Boys					
Girls					
Pupil Premium (FSM)					
Pupil Premium (Service Family)					
Pupil Premium (LAC/Adopted)					
SEN (Statement/EHC Plan)					
SEN Support					
EAL					

Important information relating to assessment in this subject:

To demonstrate greater depth learners need to show that they can deal with the expectations independently, fluently and use their reasoning skills. The main elements of this are as follows:	
Independence	Can apply the skill or knowledge without recall to the teacher/teaching assistant
Fluency	Can apply the skill and knowledge with a high level of confidence
Application	Can apply the skill and knowledge to a range of different contexts, including other areas of the curriculum
Consistency	Will be consistent in their use of skills and knowledge
Synthesise	Can organise ideas, information or experiences into new, more complex interpretations and relationships
Re-Visit	Can come back to this aspect of learning after a break and still feel confident that they can work on the skill and knowledge without difficulty

Assessment information drawn on for this subject area:**READING**

Formative	Summative
Unaided, independent Reading across the curriculum as captured in: <ul style="list-style-type: none"> • On-going Group Reading Records • Written work across the curriculum which requires children to read independently 	Y1/Y2: Benchmarking Reading Assessments Y2-Y6: Accelerated Reader Quizzes and Star Tests Y1-Y6: Reading Tests (Headstart) as available

Children's aided Reading work and 'practice' Reading (e.g. when being specifically taught a skill or aspect of knowledge) should not be used to make an assessment. Adults must be certain that the child has mastered the reading skill/knowledge and can demonstrate this as above before making a secure judgement relating to any aspect of reading.

APPENDIX: ASSESSMENT ACROSS THE CURRICULUM**Pupil's Name:**

Date of Birth	Gender (B/G)	Pupil Premium		EAL (language)	Additional Needs			Other information
		FSM (Y/N)	Forces (Y/N)		SEN support	SEN support +	Statement or EHC plan	

Science

Essential Learning Objective		December			April			July		
		B	A	D	B	A	D	B	A	D
Skills	To work scientifically									
Bio	To understand plants									
Bio	To understand animals and humans									
Bio	To investigate living things									
Bio	To understand evolution and inheritance									
Chem	To investigate materials									
Phys	To understand movement, forces and magnets									
Phys	To understand the Earth's movement in space									
Phys	To investigate light and seeing									
Phys	To investigate sound and hearing									
Phys	To understand electrical circuits									

Geography

	To investigate places			To investigate patterns			To communicate geographically		
	B	A	D	B	A	D	B	A	D
December									
April									
July									

History

	To investigate and interpret the past			To build an overview of world picture			To understand chronology			To communicate historically		
	B	A	D	B	A	D	B	A	D	B	A	D
December												
April												
July												

Art and Design

	To develop ideas			To master techniques			To take inspiration from the greats		
	B	A	D	B	A	D	B	A	D
December									
April									
July									

Design and Technology

	To develop ideas			To master techniques			To take inspiration from the greats		
	B	A	D	B	A	D	B	A	D
December									
April									
July									

Music

	To perform			To compose			To transcribe			To describe		
	B	A	D	B	A	D	B	A	D	B	A	D
December												
April												
July												

Computing

	To code			To connect			To communicate			To collect		
	B	A	D	B	A	D	B	A	D	B	A	D
December												
April												
July												

Languages (KS2)

	To read in German (taught curriculum)			To write in German (taught curriculum)			To speak German (taught curriculum)			To understand the culture of countries where German is spoken		
	B	A	D	B	A	D	B	A	D	B	A	D
December												
April												
July												

Religious Education

	To understand beliefs and teachings			To understand practices and lifestyles			To understand how beliefs are conveyed			To reflect			To understand values		
	B	A	D	B	A	D	B	A	D	B	A	D	B	A	D
